Subject: calls
Date: 04/07/2011 07:25 AM

Gary,

Since we keep missing each other's calls I'm sending this email. NORCO and the company that is/was purchasing the Falcon Refinery would like to know if we stand a chance of not having the lien go into effect. That will kill the sale. Also, as indicated we will start immediately if the EPA will let us.

I was at the site with contractors examining the tanks to get an update on the sludge removal and looking at the grossly contaminated soil on the day that Gloria issued the letter.

Can you provide any insight into what's going on? Should we call Mr. Coleman? I'll take any advice you have.

Stephen Halasz P.G.
